

International Women's Day 2023: #EmbraceEquity

The Staff Union joins the theme of International Women's Day by fully embracing the #EmbraceEquity theme.

"Equity is not just a good thing, it is a necessity."

"Gender equity must be part of the DNA of every society.

It is essential to understand the difference between equity and equality, to do so we strongly recommend you click on this link to learn more.

Equity means creating an inclusive world.

It is about giving everyone their due by reference to the principles of natural justice. It is not enough to talk or write about it!

Beyond that, it is something we need to embrace, support and value.

Drawing attention to prejudice and prioritising inclusion and denouncing discrimination.

The foundation of gender equity is not limited to the women who lead this fight: it is an "inclusive" fight that needs partners.

Everyone, everywhere, can play a role.

Collectively, all of us together, we can all make positive changes.

Encourage and rally your friends, family, colleagues and community to 'embrace equity'.

The Staff Union encourages you to 'Embrace Equity'! and not just on this day but every day throughout the year.

Let's embrace equity today and forever.
